

CHILDREN PLAY IN THE WAR

Children play in the war.
It 's rare to play for peace
because adults
always make war,
do you "bang" and laugh;
The soldier shoots
and another man
do not laugh anymore.
And 'the war.
There's another game
to be invented:
bring a smile to the world,
do not cry.
Peace means
that not everyone likes
the same game
that your toys
also like
other children
who often have none,
why do you have too many;
that the drawings of other children
do not mess up;
that your mother
not only is all yours;
that all children
are your friends.
And peace is still
not hungry
do not get cold
have no fear.
